Introducing Sports Field Conditioning Technology for Cricket & Golf

Finally here's the solution to cricket matches being called off due to wet outfields... or the problems with maintaining Putting Greens in world-class condition all-round the year. SubAir® Systems (USA) have perfected the aeration technology that helps natural grass to be in the best condition for sports and its vacuum based water drainage technology ensures immediate re-start of the game even after heavy rains.

GSI Hall of Fame

The Field Turf installation at the prestigious Chowgule Ground, Goa (SAARC Region's First artificial turf football field) nearing to its 6-year milestone. Even after extensive use by the soccer players, the grass is as good as it was on Day 1. Players love to play on the ever-green FieldTurf.

What Clients Say !!

"The St.John's International School of Bangkok, Thailand is pleased to confirm that the running track PORPLASTIC Olympic is in very good condition. After 8 Years of normal use, it still fulfills all the requirements for running tracks as stated in IAAF tracks and fields manual."
